Waste Management Solution

sharmamahendra1964@gmail.com

■ About Company

Our company was founded in 1981, by one of our forefathers who traditionally excelled in the field of engineering. Has received many awards.

The Company's founder Rajan MC, many machines have been designed and manufactured under his leadership.

Today this company stands as the largest manufacturer in Kerala. The reason we have reached this level is because of the quality of the products we manufacture and the service we provide to our customers.

■ Introduction

We would like to introduce ourselves as one of the leading manufacturer of superior quality Waste management machines and Textile Machines in Kerala for the last 43 years.

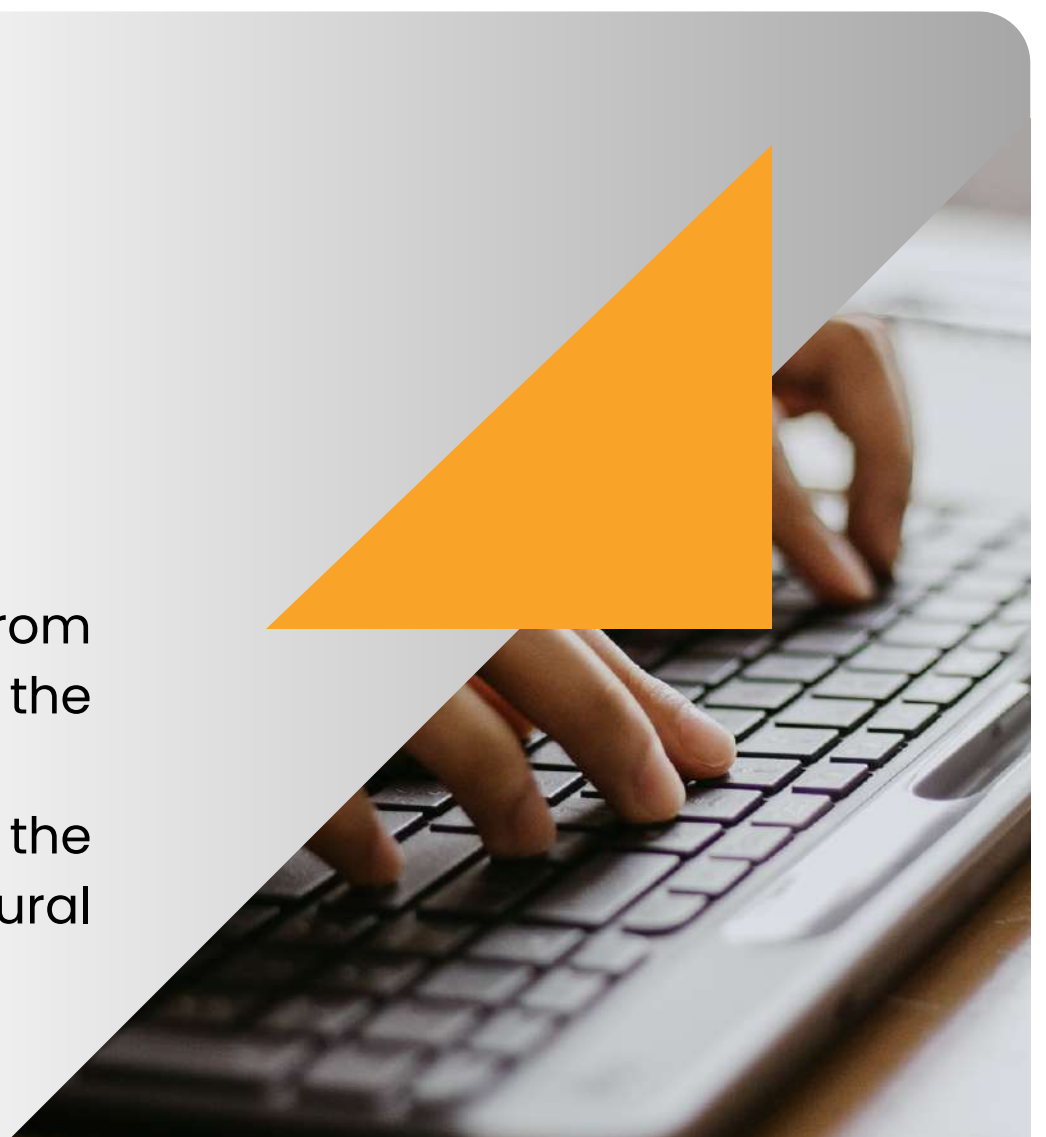

Incinerators are available in different capacity and different models, like Stainless steel, Mild steel, Steam water producing Incinerator, Fuel gas Incinerator, Animal waste Incinerator, Medical waste Incinerator, Wet Scrubber device Incinerator, Mini movable Incinerator, Hybrid Incinerator, Poultry waste Incinerator and Customized Incinerators.

Manufacturing in Textile machines like Sample cloth cutting machine, Colour checking cabin, Hydro extractor, Fabric rolling, inspection & measurement checking machine, Calendaring machine (Ironing for long fabric at a stretch), Fiber filling machine, Pillow packing machine, Fabric checking table, fabric holding rack, lift trolleys and Customized machines

■ Our Mission and Vision

Our mission is to protect people from polluting nature by burning garbage in the open air.

Through this, we will try to reduce the global temperature and protect natural beauty.

SANITARY NAPKIN INCINERATOR

This Incinerator is very easy to use and clean. Very compact and spacious. Electric Napkin burner constructed with epoxy-coated thick sheet metal. The heating base is made of Stainless steel SS304. Freely operating hinged Front-loading door, ceramic insulated air-tight metal door, prevent heat loss, Insulated Ash tray for easy disposal, Operating temperature range: 350C/500C.

 Burning Time
10/15 minutes

 5/6 Napkins at a time
Per day 60 Napkins

 Power Requirement
220/240V

Model: AGNI Ni60 ★★★★★

SANITARY DIAPER & NAPKIN INCINERATOR

This Diaper Incinerator is designed to provide a hygienic and convenient solution for disposing of used diapers. it is easy to use and clean. Very compact and spacious. Electric Napkin burner constructed with epoxy-coated thick sheet metal. The heating base is made of Stainless steel SS304. Freely operating hinged Front-loading door, ceramic insulated air-tight metal door, prevent heat loss, Insulated Ashtray for easy disposal, Operating temperature range: 350C/500C.

 Burning Time
10/15 minutes

 10/12 Napkins at a time
Per day 110 Napkins

 Power Requirement
220/240V

Model: AGNI DNi100 ★★★★★

O2 DUAL EXTRACTING INCINERATOR

Simple as it may seem, this is a powerful Incinerator. It is mainly used for General waste, diaper, sanitary napkin burning. Its special feature is that it does not smell outside. It is also available for fully stainless steel 304 and 202 grades. This Incinerator is easy to use and clean. Very compact and spacious.

 Burning Time
10/15 minutes

 5/6 Napkins at a time
Per day 60 Napkins

 Power Requirement
220/240V

Model: AGNI 02i ★★★★★

FUEL FREE GENERAL WASTE INCINERATORS

The most modern model of the Incinerator provides no fuel with a quick burning system and, a very compact and spacious design. Dry waste with wet waste can be incinerated. Self-air blowing System, manual Ignition door. very easy to use and clean option. Burnt ash can be easily removed by a metal tray. IS8 Brick prevents internal heat from escaping. due to the large door, waste can be loaded easily. Rainwater protecting cap. Longer and sturdy metal stand.
